- JavaScript
- TypeScript
- React
- Nextjs
- GraphQL
- Tailwind Css
- Nodejs
- Rest Api
- Git
- Aws Deployment
- Expressjs
- Agile Project Management
- Sprint Planning & Execution

Professional Experience

Frontend Developer, *Leadpulse.io* 📄

June 2023 – present

- Utilized React and Next.js in conjunction with the MERN stack to develop a responsive and efficient user interface.
- Collaborated closely with backend developers to integrate frontend components seamlessly.
- Improved user engagement by implementing modern UI/UX principles, leveraging Tailwind CSS & SCSS for styling enhancements.

Projects

PORTFOLIO 📄

- Built a sleek portfolio with React, Next.js, TypeScript, Tailwind CSS, and Framer Motion for a seamless and engaging user experience.
- Implemented React Email & Resend and hosted the portfolio on Vercel for reliable communication and scalability.

DECENTRALISED VOTING (DVOTE) - Final Year Project 📄

- Created a Decentralized Voting System (DVote) using Solidity for smart contracts on the blockchain, ensuring secure and transparent voting with anonymity protection and tamper prevention.
- Employed Ganache for deploying a local blockchain, enabling efficient testing and system deployment, ensuring the reliability and consistency of the blockchain network for DVote.

WOW FOODS - Pre Final Year Project 📄

- A fully functional online food ordering website that enables users to place orders for food, and includes features such as menu browsing, cart management, and order tracking, resulting in increase in customer satisfaction and revenue.
- Built an intuitive and user-friendly admin panel to manage all food items, view revenue statistics, and track delivery status, streamlining order processing and management and increasing efficiency up to 80%.

Certificates

- CONTENTFUL CERTIFIED PROFESSIONAL 📄
